KEY PROJECTS

E-COMMERCE APPLICATION & BLOG APPLICATION 5 MONTH
APR 2023 - AUG 2023 INTERNSHIP
An e-commerce website is one that allows people to buy and sell physical goods, services over the internet & process orders, accept payment. Tools are used like Payment Integration, Mail Integration etc. The Blog Application project in Laravel is a web application that allows users to create, manage, and view blog posts. In these project CRUD operation, relationship is performed Using MVC pattern.

VADODARA GAS LIMITED (VGL), MOONSHINE, HR ASTRA 6 MONTH
SEP 2023 - JAN 2024 COMPANY ORGANISATION
In these project whole frontend+backend functionality worked done. Mail Integration, pdf download, CRUD, CK-editor, data table, soft delete, forget password, SweetAlert, PDF upload, mechanisms used. In Moonshine project backend work done using laravel Ajax mechanism used in CRUD, Data table, chat system, forget password, roles & permissions, Dependent drop-down. In Hr astra API created in backend using json like insert, delete, edit, update, pagination, search using postman and MongoDB database.

SCHOOL MANAGEMENT, ADVOCATE DIARY, TOUR AND TRAVLES, SSS FASHION 3 MONTH
AUG 2024 - OCT 2024 COMPANY ORGANISATION
In my School Management System, I built both the backend and frontend to manage users like students, teachers, and parents. For the Tour and Travels project, the website manages bookings, cancellations with an easy-to-use interface. In the Fashion project, the platform supports product listings, order management, and wishlist functionalities, all integrated with a responsive design. Lastly, the Advocate Diary system handles case management and document uploads, designed with user-friendly for both admins and clients.
